Since 1986 Foundation Specialists, LLC has provided quality foundations in the greater Puget Sound area and beyond. From footings and foundation walls to water retention vaults and retaining walls. Our experienced project managers guide each job to completion. We keep on schedule.

Organization is important to us. We carefully track every project from start to finish. Our professional crews are trained to think as they go. We complete an extensive quality check before and after every pour. Why? Because a job well done is our passion! Most of our work gets buried but a solid foundation is the beginning of a building that endures the test of time.

With over forty-five thousand footings and foundations behind us, we look forward to completing yours.
